SALTPETE writes us :- The notice typhoon in your Extra of this afternoon is even worse than our information from our dear Dr. Doberck. Now I should ask any sane man what information can be gained from the following: "The typhoon indinated this morning appears to be situated about 16 degrees near to the island (of Luzon); it is probable it may pass through "Northern region." A degree is generally supposed to represent 60 miles, now if the typhoon is 960 miles from Luzon there is "no fear of it hurting any one round about made. The town is full to overflowing with here. The explanation is doubtless thisthe Manila telegram should read: - The typhoun indicated this morning appears to be situated about 'the 16th degree (N. latitude) near' &c. This would just place it

in the Northern region of Luzon.

THE Banakok Times says :- \ccording to certain rumours affont and messages received there is every reason to believe that the Cambudians are in revolt against the French ; that King Norodom is under arrest, being armed for projective purposes owing and that Prince Doang Chakkra, the Heirapparent, is a fugitive in Siamese territory and may shortly be expected to turn up in Bangkok ! Old residents in Siam will remember that the above-named prince was some time ago reported to have ma ried a daughter of Mr Knox, formerly British Consul in Bingkok. That lady we understand, has for some time past been a resident of this city —The Siam Gazette has the following paragraph evidently referring to the same subject :- Ong Doong Chak, the eldest son of the King of Cambodia, has been living on Siam se territory for the last two or three months, his exact whereabouts Italy, on the Adriatic, have discovered the up to the pr. sent being unknown. It is existence of a new murder league like the corrently reported that his servants have i been seen in Bangkok and also that the The soldiery was despatched to secure the Prince has been staying in Bangplasoi. The Prince is married to the widow of Phra Picha, Governor of Packnam, who was beheaded in 1879. The lady is also the daughter of a former British Consul at Bangkok, Sir Thomas G. Knox.

A FEW Years ago, when Bangkok was permitted to get the whip-hand of Burma in the timber trade, enormous quantities of timber were exported from Siam. This was brought about by the Moulmein government raising the duty on timber in order to benefit Rangoon and thereby break the back of the Moulmein export timber trade. We pointed out at the time that amongst the timber shipped from Siam were several very inferior cargoes calculated to damage the Siamese timber trade abroad. Our prognostications have proved too true. There are at present on the London market, and in some ports along the China coast, large quantities of iuferior Siamere wood quite unsaleable, and what is more regrettable, in many cases the logs are found to have been plugged and the consequence is that confidence in Biam teak has been lost. The falling off in the quality has been explained in various ways but, whatever the cause. some years of careful nursing and exceeding care in selecting cargoes shipped under contract will be required before the trade Great enthusiasm prevailed. recovers the position lost in 1890. However, an active market may be looked for when buyers abroad are again able to confidently expect that first class shipments will be made in accordance with the terms of their contracts .- Bangkok Times.

THE Banckok Times of 12th inst. savs :-- A gloom was cast over the community of Bangkok on Wednesday morning last when news of the andden death of Mr G. Galwey, C.E., by drowning, was received by tele gram from His Excellency the Governor of Chantaboon. From information courteous ly supplied us it seems that Mr Galwey was coming down the Chantaboon river native boat, after finishing up some important railway survey work in that part of of the leading citizens of London, the country. Upon arrival at the Chantaboon bar and owing to the wind and high ser running the bost capsized, and all the occupants were precipitated into the river which, owing to recent rains, was running with unusual rapidity. Mr Galwey doubtless struggled hard to gain the shore but no wiccour coming and the distance being considerable his strongth failed and he sank to rise no more. As soon as the G vernor of the district heard of the accident, he issued directions for the recovery of the body and wired the sad news to Bangkok. Latest information, we are glad to bear, although it is but little consolation under the circumstances, is to the effect that the body has been recovered, and has been forwarded to Bangkok, where the foneral will be conducted at the Assumption Church shortly after the arrival of the Chantaboon steamer. It may be added that H. R. H. Prince Devamonges telegraphed special Canada, remains unserved, as M'Greevy in instructions to the Governor of Chaptaboon | order to evade arrest, fled to New York, respecting the end affair, and to this fact and, lest he should be expelled from the the literoused the recovery of the body Dominion House of Commons, resigned his of Science began at Cardiff to-day under and the care taken to do everything possible | seat.

THE CHINA REVIEW. PUBLISHED BI-MONTHLY.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of ' Notes and Queries on China and Japan, has reached its Eighteenth Volume. The Review discusses those topics which are uppurmost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc.,

of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be mademore generally

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors land Publishers are requested to forward works to Editor, China Review, ewe of China Mail Office.

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students know ledge on obscure points. The Correspondents' column also afford

farther and greater facilities for the interchange of views and discussion of various topics. Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the

members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary hodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drz. Chalmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Messra Balfour, Watters, Stont, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, Piton, and Taylor, -all well-known names indicative of sound scholarship and thorough mastery of their subject.

The Subscription is fixed at \$6.50 per annum, postage included payable in ad Orders for binding volumes will

promptly attended to: Address. Mana ger, China Mail Office."

OPINIONS OF THE PRESS. 'All our learned societies should sul scribe to this scholarly and enterprising Rview.'-Northern Christian Advocate (U.S.) The China Review * * * has an ex cellent table of contents.' - Celestial Empire

The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if no advantageous comparison, with proceeding numbers.'-Celestial Empire. 'This number contains several articles

of interest and value.'-North-China Herald. The China Review for September October fully maintains the high standard of excellence which characterises that publiestion, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche. on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Rusvian Observatory at Peking, from 1841 to "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of

New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries are as usual very interesting. -North-Chino Daily News. 'A substantial and reliable Resear which all students of China and the Chinese would do well to patronise.'—Carysanthenium. The November-December number of the Okina Review contains loss variety than

usual, but the few articles are very interes

ting. The opening paper by Mr Herbers A. Giles on "The New Testament in Chi-

nese" treats of a question that must neces sarily be of great importance in the eye of all missionaries. . . Mr E. E Parker's "Short Journeys in Szechuen are continued, and a goodly instalment of these travels in the interior of China given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which

"On Ohinese Oaths in Western Borneo

and Java" might appropriately have been

placed under a separate heading, complete

the number. -H.K. Daily Press. Trubner's Oriental Record contains the following notice of the China Review:-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to say nothing of linguistic studies, has lad to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable: and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body,

among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors.

Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. O. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that Notes' and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary real to that which was displayed during the lifetime of its predeconsor in the field, and that the China Review may receive the support necessary to insure
